

Acknowledgements

We would like to express our sincere gratitude to Professor Mel Slater for his exceptional guidance and mentorship throughout the development of this dissertation proposal. His expertise, thoughtful feedback, and unwavering support have been invaluable in shaping the direction of our research. We are deeply appreciative of the time and insight he generously shared, and we are honored to have the opportunity to work under his supervision.

We would also like to acknowledge the European Union for funding the Erasmus Mundus Joint Master's Degree in *Cyberspace Behavior and E-Therapy*. Without the support of this program and the accompanying scholarship, this research project would not have been possible. We are deeply grateful for the opportunity to participate in such a unique and enriching academic experience.

Ethics Approval Statement

This research project will be conducted in accordance with the ethical guidelines of Universitat de Barcelona's psychology department and the principles outlined in the General Data Protection Regulation (GDPR) and other relevant European Union ethical standards. Ethical approval for this study is currently pending and will be sought from the appropriate ethics committee prior to the commencement of any data collection. All procedures involving human participants will ensure informed consent, the right to withdraw at any time, confidentiality, and secure data handling.
